EDUCATION

BE(CSE)
Dr.N.G.P iTech
2028

HSC (12th)
Karthick Vidya Mandir Matric School
2024

TECHNICAL SKILLS

MEAN, React Native

Rust, Java, Python

SQL, MySQL

Linux (Beginner)

AWS, REST APIs (Beginner)

Prompt Engineering

Git, GitHub, Vercel

SOFT SKILLS

Leadership

Communication

Team Management

SUMMARY

Motivated Computer Science undergraduate with hands-on experience in software development, full-stack web technologies. Strong foundation in C, Java, Python, Rust, Linux, and problem-solving, with practical experience building real-world projects. Quick learner with leadership experience, eager to contribute to networking, application software, and systems development in a collaborative engineering environment.

PROFESSIONAL EXPERIENCE

Team Lead

Infanji Technologies, Coimbatore | February 2026- June 2026

- Led a team in the development and execution of software and technology projects.
- Managed project planning, task allocation, and team coordination to ensure timely delivery.
- Facilitated collaboration, problem-solving, and communication across development teams.
- Contributed to strategic planning, process improvement, and operational decision-making.

Full Stack Developer Intern

Pinesphere, Coimbatore | August 2025 – October 2025

- Worked on web application development using Python and Django
- Assisted in frontend and backend integration
- Managed database operations and debugging tasks
- Gained practical exposure to web development workflows

PROFESSIONAL AFFILIATIONS

- Tresure IEEE & IEEE Computer Society
- International Service Director Rotaract Club

ACADEMIC PROJECTS

- **Alumnyx** - Developed a React Native-based alumni networking platform enabling mentorship, communication, and job opportunities through role-based access.
- **Light Boundary System** - Designed a sensor-based cricket boundary detection system that triggers LED lights instantly when the ball touches or crosses the boundary rope.
- **TokTrim** - Built a stateless AI middleware using Python FastAPI to preprocess and optimize LLM prompts, reducing token costs by up to 50% through intelligent text compression and low-latency filtering for enterprise AI applications.

- **Kitchen Manager -** Full-stack restaurant order and inventory application built with a modern, high-contrast UI. It features real-time Indian Rupee (₹) menu pricing, interactive order trays with Dine-In (table number routing) and Takeaway (contact & pickup timing) options, and secure passcode-protected kitchen administration.
- **CodeExam –** It is an end-to-end online coding examination and technical assessment platform built for educational institutions, faculty instructors, and students. It combines a real-time coding IDE with strict browser-based proctoring capabilities.
- **CashFlow AI** - AI-Powered Financial Intelligence Platform that analyzes business financial data to forecast future cash flow, identify potential cash shortages, and provide insights into rising expenses and delayed customer payments.

LEADERSHIP ACTIVITIES

- Organized IdeaFury, a startup pitching event that provided a platform for aspiring entrepreneurs to present innovative business ideas.
- Coordinated Illuminate, a startup-focused workshop aimed at fostering entrepreneurial skills and innovation among students.
- Led the Technical and Design team at NGP Infanji E-Cell, overseeing event branding, creative design, technical execution, and promotional campaigns for entrepreneurship programs.

ACHEIVEMENTS

- Qualified for and attended the finals of the E-Summit, engaging with startup founders, investors, and industry leaders.
- Secured **3rd Prize** in the IPL Auction Competition conducted by KGISL.
- Participated in Paper Presentation and Technical Quiz
